## Objective

---

B.Tech Computer Science Engineering student with a strong foundation in Java, Data Structures and Algorithms, and modern web development using the MERN stack. Passionate about problem-solving, writing clean and efficient code, and building responsive user interfaces. Seeking opportunities to apply technical skills and gain real-world industry experience.

## Technical Skills

---

- **Programming Languages:** Java (DSA), JavaScript, HTML, CSS
- **Web Technologies:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Frontend:** React.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js,
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, Visual Studio Code

| Secondary Education                                           | 79%         |

## Projects

---

### Event Planner Application (MERN Stack)

- Developed a full-stack event planning system with authentication, hall booking, and customer management.
- Built RESTful APIs using Node.js and Express.js with JWT-based authentication.

### Chat Application (MERN Stack)

- Created a real-time private chat application using WebSockets.
- Implemented Email and OTP-based two-step authentication.
- Managed global state using React Context API.

## Internship
